

**Double Degree Studies
CentraleSupélec Paris – KTH Stockholm**

Julie McDonald, CentraleSupélec – Torkel Werge, KTH. Nov. 2019

Double Degree Studies

Double Degree studies means that you get two official degrees

In this case: *Diplome d'ingénieur* from CentraleSupélec and *civilingenjörsexamen* from KTH

The CentraleSupélec – KTH DD-cooperation works on the idea of complementarity; linguistic, pedagogical and cultural

Putting aside that DD is the clever move for your career, the students mainly reflect that they have experienced so much!

Study track for DD-students with KTH as home institution

Year 1

KTH

Year 2

KTH

Year 3

KTH

Students in Engineering Physics can go as soon as after year 2 but must expect 5.5 to 6 years of studies in total

Year 4

CentraleSupélec

Year 5

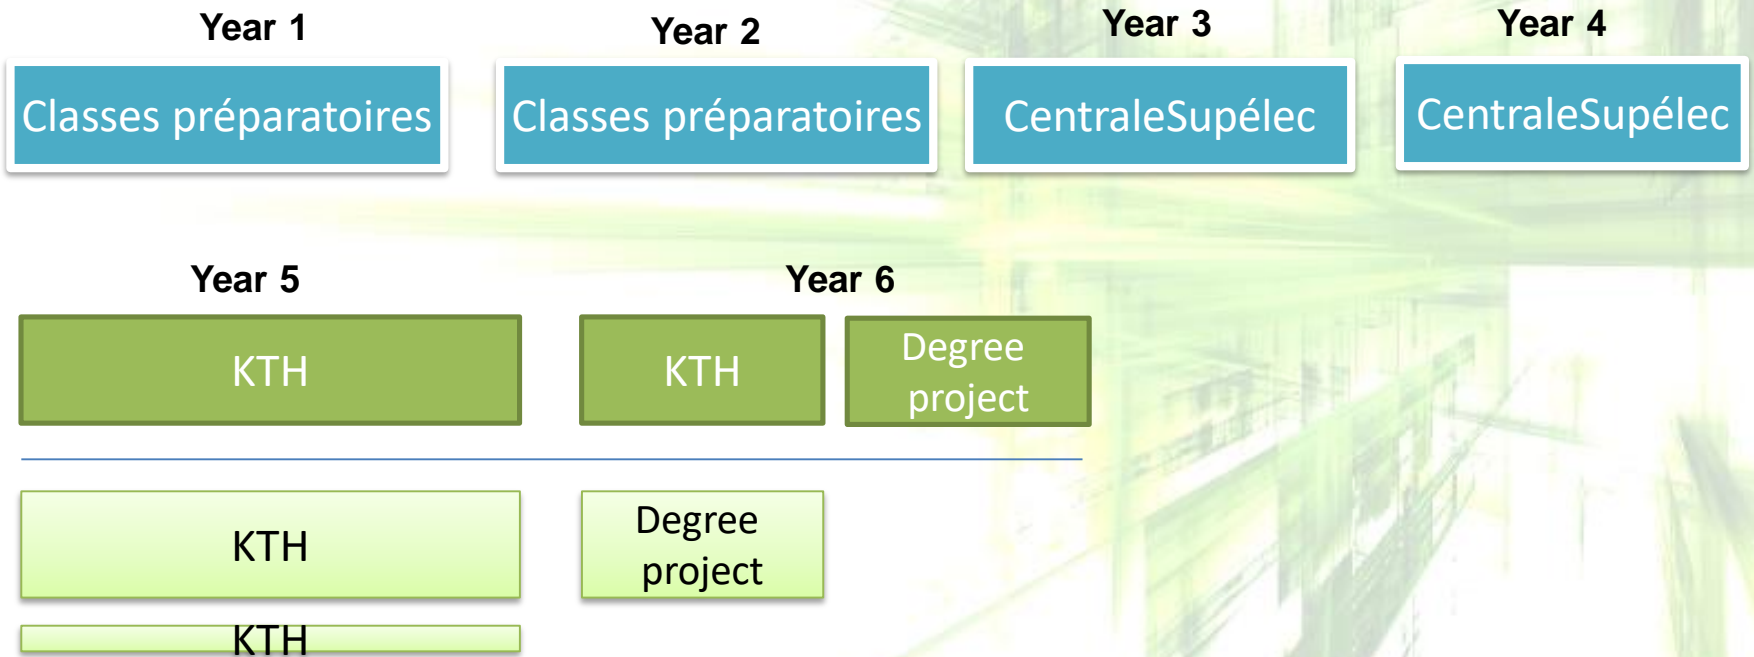

CentraleSupélec

Year 6

KTH

The double/joint degree allowed me to make the most of my potential to reach a fulfilling career	58,4%
The double/joint degree played a significant role during the recruitment process for my job	58,1%
I work abroad thanks to my double/joint degree	48,8%
I have the job I aspired to thanks to my double/joint degree	45,4%
Having a double/joint degree allowed me to earn more	38,4%

MOTIVATIONS

IMPACT

 Job Opportunities | Living abroad

More work opportunities | Job Offers

 Earn more | DD

Earn more | Recruitment | DD

Final Remarks

- ✓ Unsurprisingly the majority of graduates consider that the DD experience gave them the ability to work in an international context
- ✓ Overall, one can say that the recommendation issue is very positive. The majority of graduates recommend a DD no matter how long ago they graduated.

Thank you!

Now when my group gets some problem we should take care of I immediately see how a French engineer would approach it and how a Swedish engineer would approach it.

- Tomas, a former DD-student KTH/Supélec
